## Stardust from trial to practice

### Scientific directors

#### Silvio Danese

Head IBD Center, Professor of Gastroenterology, Humanitas Research and University Hospital - Rozzano, Milan, Italy

#### Laurent Peyrin-Biroulet

Full Professor of Medicine IBD Unit, Department of Gastroenterology Nancy University Hospital, France

Inflammatory bowel disease (IBD) including Crohn's disease (CD) and Ulcerative Colitis (UC) are chronic diseases that significantly impact on patients' lives. Novel diagnostic and interventional techniques, imaging modalities and the introduction of biologics and small molecule have dramatically improved their management and outcomes. The main aim of these webinars is to focus the attention of practicing IBD experts on the most novel imaging modalities, the use of new drugs, and how to integrate them in daily clinical practice. Several interactive clinical cases will be presented and discussed to deliver the learning objectives.

- Welcome 5'  
*Silvio Danese, Laurent Peyrin-Biroulet*
- Treat to target in routine practice: lessons from RA 20'  
*Carlo Selmi*
- Treat to target in cd in routine practice: lessons from stardust 20'  
*Axel Dignass*
- How to assess disease modification in routine practice (disability, LI etc.)? 15'  
*Jean-Frederic Colombel*
